DETAILED ACTION

Election/Restrictions

1. Applicant's election of claims 1-15 & 28-46 in the reply filed on 8/25/09 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 14-15 & 45-46 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 14-15 & 45-46 are directed to a "program", which is not a process, machine, manufacture, or composition of matter.

Allowable Subject Matter

4. Claims 1-13 & 28-44 are allowed.

5. Claims s 14-15 & 45-46, insofar as they are understood, would be allowable if rewritten or amended to overcome the rejection(s) under 35 USC §101, set forth in this Office action.

6. The following is a statement of reasons for the indication of allowable subject matter:

Re claims 1, 5, 10, 12-15, 18, 30, 39, 41, & 43-46 (and dependent claims 2-4, 6-9, 11, 29, 31-38, 40, & 42), insofar as claims 14-15 & 45-46 are understood, the art of record does not teach or suggest the recited arrangement of a correlation map correlating for correlating dot number data of a pixel group collected from a preset number of plural pixels with each combination of a pixel group classification number allocated to the pixel group and the specified pixel group tone value of the pixel group.
